Greetings from group DCA!

group DCA offers a spatial dialogue to their patrons by designing unique and niche spaces as per individual needs. The aim is to understand the individual as well as brand identity and extend it in our design, further creating an enhanced experience for the user.

This month's edition of the newsletter highlights these concepts through a couple of our recently accomplished projects.

We look forward to your thoughts and feedback - write to us at media@dcaarch.com

PROJECT HIGHLIGHTS

Integrating the Human with the Built Environment

A multi-generation home, the space in its entirety is a manifestation of the family's essence as a whole and the personal spaces are a manifestation of the individual. The architecture, interiors and the individual residents, all together, are an exemplification for a joint family to successfully function in today's world.

A flagship store, Tribhovandas Bhimji Zaveri Group, a renowned jewellery brand from Mumbai, envisioned creating a unique market image and position itself to enter the Northern region with major expansion plans. For this, group DCA was engaged to develop a new identity and image.

The challenge was to establish 'a connect' - recreating a spatial experience based on the core philosophies of the sixties in the twenty-first century. This required much more than architectural expertise.
