THE
DLIST

A TIMES GROUP INITIATIVE

1

Design is life, and good design is the stuff that dreams are made of. To commemorate the best of the best, we have curated the ultimate listing. Hansgrohe presents The D List, a Times Group Initiative is the definitive hotlist of India's leading design practices, and recently we announced its very first edition. Based on their impressive contribution to India's designscape and being the creative force they are, this hotlist celebrates the creative minds behind the incredible design we have witnessed, experienced and appreciated through the years. From urban planning and residential design to commercial executions and hospitality... these are the masters of design!

For one night in May, we brought together the stalwarts of Indian design to salute their contribution and everything they have achieved through the years. Our presenting partner Hansgrohe joined us as we did the honours.
