## What's New?

Bandh Road Residence, Delhi

Our recently completed residential project at Bandh Road sprawls across 8,000 square feet on an acre of farmland near Delhi. The residence embodies a relaxed, country-style aesthetic drawing inspiration from colonial architecture. The design prioritises climate-consciousness and simple planning for a comfortable living experience. Rich Victorian influences with warm colors, parquet wooden flooring, and slender windows create a sense of enduring elegance. The robust design utilises classical planning elements to offer adaptable spaces that cater to the ever-evolving needs of modern living.

Panerai Boutique, Mumbai

Driven by the client's brief to design an experiential space, our aim was to elevate the essence of luxury timekeeping at Panerai's newest boutique in Mumbai's Jio World Plaza. Spread over a sleek rectangular space, the store's layout is simple yet elegant, mirroring the spirit of adventure and maritime heritage associated with Panerai's legacy of collaborating with the Italian Navy. Exposed concrete walls serve as a canvas for the tranquil blue color scheme, accented by minimal graphics, including a diver's silhouette, subtly capturing the brand's adventurous spirit. The inviting environment allows visitors to immerse themselves in the world of Panerai watches.

Gear up for an exclusive sneak peek into the design narrative behind 'Mirwah,' a stunning jewelry boutique by Zaveri and Co., currently under developmental stage. The project promises a unique and captivating experience, but we'll keep you guessing for a little while longer. Intrigue awaits!

Revisiting the design process for the Enrich Salon in Koramangala, Bangalore echoes our love for architecture that blends 'Tradition and Modernity.' It respects the existing structure while also incorporating biophilic principles. Segregated into two portions, it features an enclosed area within the old structure and an extended semi-open space with a glazed roof, utilising the extensive backyard. Traditional design techniques harmoniously merge the old and new, creating a renewed salon nestled amidst lush greenery, ensuring comfort and privacy in areas like the pedicure section and skin rooms.
